

[internal resistance to flow is named viscosity]

Joel Kirk (2017)

written for loadbang

c.11 minutes

Baritone Voice
Trumpet in C
Tenor Trombone
Bass Clarinet in Bb

NB. due to the polytempic nature of the piece, the pdf of the score runs continuously from page to page, however in physical form would be presented as one continuous page.

Programme Notes:

“...[the dissociation of] the inextricable interlocking of meter and subdivision impulse [and tempo] as correlatable strands of sonic information...”

- Brian Ferneyhough, 1989

“Diagnostic labels such as ‘dementia’...represent the endpoints of diagnostic processes that rest on some...typically unquestioned assumptions, among them the following:

- a) That cognition can be modelled as a set of dissociable deficits and skills.
- b) That these deficits and skills reside in an individual brain and can be meaningfully accessed and measured in a decontextualised fashion.
- c) The sum of these skills and deficits adds up to a whole cognitive apparatus.

...these diagnostic criteria in turn define not only the dividing line between what constitutes normal functioning...with deficient functioning, but also the categories of deficiency, such as dementia.”

- Müller & Schrauf, 2014

“[Viscosity is] a measure of the flow transport behaviour of a fluid. It is the phenomenon in which a fluid will withstand a slight amount of molecular tension between particles, which will cause an apparent shear resistance between two adjacent layers.

The term ‘viscosity’ is used to describe the fact that certain fluids flow easily, such as gases, water, and mercury, while others do not, such as tar, treacle, and glycerine. These fluids are broadly classified as thin and thick fluids.”

- Carl Schaschke, 2014

“The Kawa Model uses the metaphor of the river to examine issues in a person’s life...Water is the person’s energy of life; flow which is strong when a person is healthy, weak when someone is ill. It stops flowing when it meets the sea and the person is dead. The direction, flow rate, depth and clarity of water are significant.”

- Iwama, 2006

Libretto:

The text for the work is taken from Guillaume Apollinaire’s series of six poems collectively entitled *À La Santé*, making use of poems I-IV of said six. The poems were published as part of the *Alcools* collection in 1913, written after Apollinaire’s short tenure at *La Santé Prison* (Paris) in 1911. *À La Santé* contains running themes of both physical and mental imprisonment, vividly capturing both the literal and metaphorical effects of incarceration on the mind of the poet.

I

Avant d’entrer dans ma cellule
Il a fallu me mettre nu
Et quelle voix sinistre ulule
Guillaume qu’es-tu devenu

Le Lazare entrant dans la tombe
Au lieu d’en sortir comme il fit
Adieu adieu chantante ronde
Ô mes années ô jeunes filles

II

Non je me ne sens plus là
Moi-même
Je suis le quinze de la
Onzième

Le soleil filtre à travers
Les vitres
Ses rayons font sur mes vers
Les pitres

Et dansent sur le papier
J’écoute
Quelqu’un qui frappe du pied
La voûte

III

Dans une fosse comme un ours
Chaque matin je me promène
Tournons tournons tournons toujours
Le ciel est bleu comme une chaîne
Dans une fosse comme un ours
Chaque matin je me promène

Dans la cellue d’à côté
On y fait couler la fontaine
Avec les clefs qu’il fait tinter
Que le geôlier aille et revienne
Dans la cellue d’à côté
On y fait couler la fontaine

IV

Que je m’ennuie entre ces murs tout nus
Et peints de couleurs pâles
Une mouche sur le papier à pas menus
Parcourt mes lignes inégales

Que devidendrai-je ô Dieu qui connais ma douleur
Toi qui me l’as donnée
Prends en pitié mes yeux sans larmes ma pâleur
Le bruit de ma chaise enchaînée

Et tous ces pauvres coeurs battant dans la prison
L’Amour qui m’accompagne
Prends en pitié surtout ma débile raison
Et ce désespoir qui la gagne

- Guillaume Apollinaire, 1913

Notation:

General

Throughout the work, all four performers are moving at different speeds simultaneously. To maintain absolute score-accuracy, some alterations have been made to the standard notation in order to remove extra space that would usually be required by time signatures, accidentals and extended techniques, etc:

time signatures are located in ‘lollipop’ fashion directly on the first impulse of each bar.

any clef changes will be shown as such and naturally apply until the clef changes again

symbols indicating extended techniques are shown on a separate line below the stave; corresponding to the notes they are beneath

dynamics (and lyrics for vocalist) are shown below the stave

ff **mf**

* All four players have an individual click-track. Impulses given by the click-track are shown in red. The performers will then have to subdivide accordingly. The pitch of the click alternates between a higher and lower tone bar by bar.

NB. Bare stems are NOT rests. They are simply articulated by the click-track in slow tempi to aid subdivision and should be sung/played through. A rest will be indicated by a traditional rest symbol. I.e:

Bare stem; the D quarter-sharp should be sung until the impulse for the A natural

Rest; the D quarter-sharp should be sung for the duration of its impulse, followed by a rest, then the A natural

Articulations

.	= staccato (interpret as short as possible)	—	= tenuto
∨ ∙	= short accent (‘stabbed’)	≥	= full-length accent
>	= accent (with some length)		

Approximate Rhythms

Occasionally in the piece, my generative processes threw up rhythms that were either impossible to accurately play, or would simply look ridiculous on the page to notate (i.e. they would require 1/128th-notes and beyond). Therefore, they are shown using grace-notes as such:

1
16

Here the performer would play two E flats of roughly equal length, and then an A natural of much shorter length.

2
16

Here the performer would play eight notes of roughly equal length over the duration of the first impulse, then three further impulses according to the click-track.

NB. Obviously, situations like this only occur where the tempo is slow enough to accommodate for such rhythms.

Glissandi

Glissandi appear frequently in the work; used situations where the rhythmic organisation of the bar allied to its pitch structure would literally have been impossible to play, therefore the following is shown:

2
16

*gliss. towards note in brackets

7:8

gl. * gl.

The player must gliss. downwards (or upwards in some cases) towards the note shown in brackets.

1
16

gliss.

The player must gliss. from note to note.

'Cross-Over Points' in the Score

Due to the continuous nature of the piece and limitations of my composing software, there are four 'cross-over points' in the score (occurring between pages: 12-16; 27-30; and 41-43). They should be interpreted as such (using the Baritone Voice part between pages 14 and 16 as an example):

(page 14.)

skip to page 16

10
8

cou - te _____ aille et

Here, the performer should read/sing upto the end of the word 'J'écoute'; at the 10/8 bar skipping to page 16, where the part is continued as such:

(page 16.)

10
8

cou - te _____ aille et

etc.

The material shown in grey is simply present to allow the cross-referencing of parts from either page (hence the term 'cross-over points' is coined to describe this instance).

Other

() = optional note (usually at places of mute changes or page turns)

(mf) = reminder of dynamic

Baritone Voice

Beneath the stave, a line is shown that not only indicates the use of extended techniques, but the style in which to sing; shown by the shade of grey of the line:

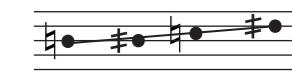

- Sung**
- Sprechgesang; half-sung/half-spoken (but closer to singing than speaking)**
- Sprechstimme; half-sung/half-spoken (but closer to speaking than singing)**

IPA sounds are shown in blue.

◇ Falsetto (found directly beneath the note it applies to)

-  Highest note possible (indeterminate)

 Found under stave when singing with hand over mouth; indicates to move hand towards and away from mouth in a ‘wah-wah’ fashion.

 Half-glissed (gliss. from the bottom to top note, ‘catching’ the notes shown in between).

Trumpet in C

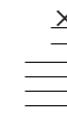

The sheer fact that the piece is so microtonal causes issues for the traditional trumpet, especially if it does not have any special slide extensions to accommodate for microtonal playing. Therefore, where necessary, the Trumpet player in this piece may treat microtonal accidentals as such:

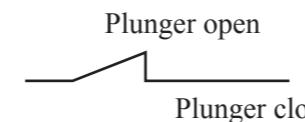

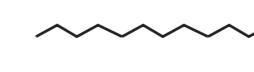

...making use of alternative valve combinations and ‘lipping’ the notes up and down to create a noticeable difference in the tuning of the note, even if it is not a whole quartertone. In areas where microtonal playing is impeded by the use of a plunger, quater-tones have been removed for ease.

flz.  Flutter-tongue

 Half-glissed (gliss. from the bottom to top note, ‘catching’ the notes shown in between).

 Highest note possible (indeterminate)

 Plunger open
Plunger closed
Move quickly from plunger closed to plunger open, then to plunger closed; creating a ‘wah’ sound (this technique also applies to use of the cup mute where shown).

 found beneath stave - indicates to shake plunger in an indeterminate ‘wah-wah’ fashion

○ single valve-click (the valve to unscrew will be indicated)*

 ^{tr.}  valve-click trill

*by ‘valve click’, this refers to the dual sound create by the valve being depressed *and* released. So for each ‘click’, depress and release the valve(s).

velato or ‘veiled’ - traditionally a wind instrument technique. Move valves quickly and gliss. up and down range shown to create a quick, muffled, ‘veiled’ sound around the range covered/shown. Starting and ending pitches are usually given.

NB. the term ‘aeolin velato’ indicates the velato of air-sound. Simply move the valves and blow air through the instrument.

 ‘t’ articulation of aeolian air-sound (indeterminate pitch).

 aeolian
gliss.
glissando of air-noise in the direction indicated

[continued overleaf...]

Baritone Voice Tablature

The tablature notation occurs in spoken/whispered passages. It simply denotes to speak/whisper the words shown in the specified range of the speaking/whispered voice. Pitch is indeterminate.

Symbols in BLACK indicate spoken word. Symbols in GREY indicate whispered word.

Pitch

High
Mid.
Low

quinze

de

la

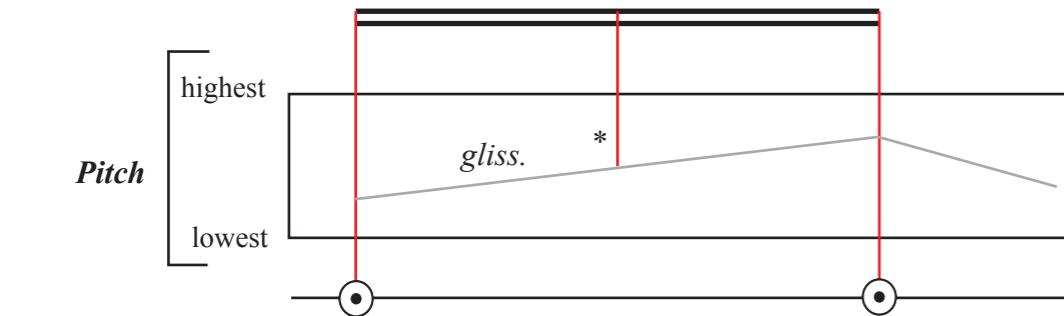

[Trumpet techniques continued...]

'scoop' upto the note as you articulate it.

Trumpet Tablature

The tablature notation occurs in passages of indeterminately-pitched sounds. It simply denotes the general pitch-direction of the unpitched sounds according to specified rhythms.

extended techniques
(articulations, valve-clicks, etc.)

Different coloured lines indicate different sound-types:

aeolian air-noise

whistle through Trumpet, using the instrument as a resonator

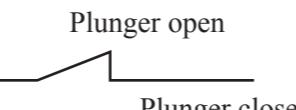

hum through Trumpet, using the instrument as a resonator

* Impulses with no symbol attached should not be articulated, but counted nonetheless.

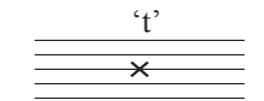

Tenor Trombone

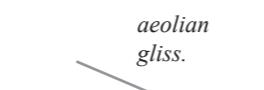

Half-glissed (gliss. from the bottom to top note, 'catching' the notes shown in between).

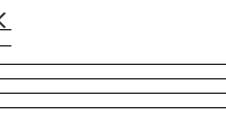

Move quickly from plunger closed to plunger open, then to plunger closed; creating a 'wah' sound (this technique also applies to the cup mute where shown).

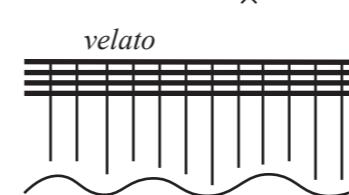

't' articulation of aeolian air-sound (indeterminate pitch).

glissando of air-noise in the direction indicated

Highest/lowest note possible (indeterminate)

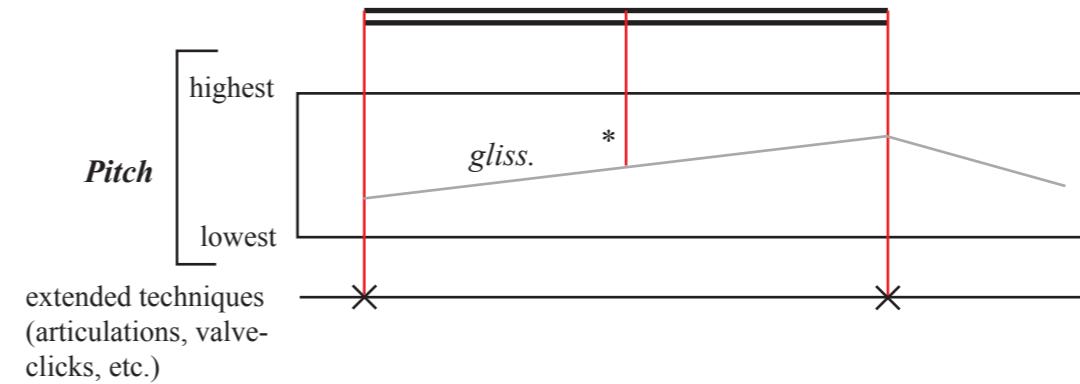

velato or 'veiled' - traditionally a wind instrument technique. Move slide quickly and gliss. up and down range shown to create a quick, muffled, 'veiled' sound around the range covered/shown. Starting and ending pitches are usually given.

'scoop' upto the note as you articulate it.

Trombone Tablature

The tablature notation occurs in passages of indeterminately-pitched sounds. It simply denotes the general pitch-direction of the unpitched sounds according to specified rhythms.

extended techniques
(articulations, valve-clicks, etc.)

* Impulses with no symbol attached should not be articulated, but counted nonetheless.

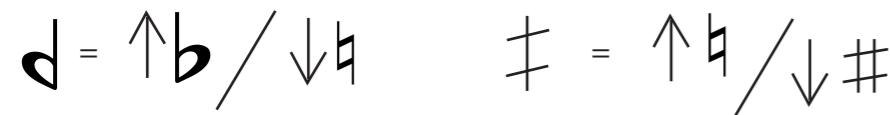

Different coloured lines indicate different sound-types:

aeolian air-noise

hum through Trombone, using the instrument as a resonator

Bass Clarinet in Bb

The microtonality of the piece causes some issues for the traditional Bass Clarinet, especially if it does not have any extensions or keys to accommodate for microtonal playing. Therefore, where necessary, the Bass Clarinet player in this piece may treat microtonal accidentals as such:

...making use of alternative fingerings and ‘lipping’ the notes up and down to create a noticeable difference in the tuning of the note, even if it is not a whole quartertone. Quartertones of particular awkwardness (according to Henry Spaarnay’s ‘The Bass Clarinet: A Personal History’ - pp. 123-129) have already been removed or notated as above.

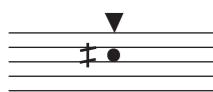

vib. Start with narrow vibrato and allow it to become wider and wild; to the point where the sound is disrupted.

flz. ~~~~~ Flutter-tongue (via the tongue or vibration of the throat - at the discretion of the player)

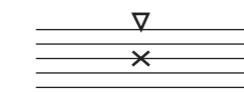

Half-glissed (gliss. from the bottom to top note, ‘catching’ the notes shown in between).

t.t. ~~~~~ timbral trill (suggested fingering shown at occurrence)

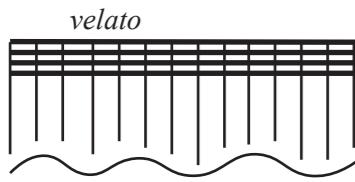

slap-tongue determinate pitch

slap-tongue aeolian air-sound (indeterminate pitch).

*aeolian
gliss.*

glissando of air-noise in the direction indicated

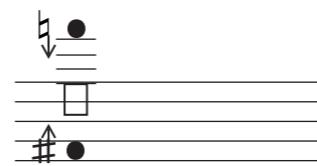

traditional velato or ‘veiled’ effect around range covered/shown. Starting and ending pitches are usually given.

NB. the term ‘aeolin velato’ indicates the velato of air-sound. Simply click the keys and blow air through the instrument.

Found beneath the stave. Indicates to play with a weak, airy tone quality.

aeolian (air) gliss before articulating note (try to achieve a whoosh of air).

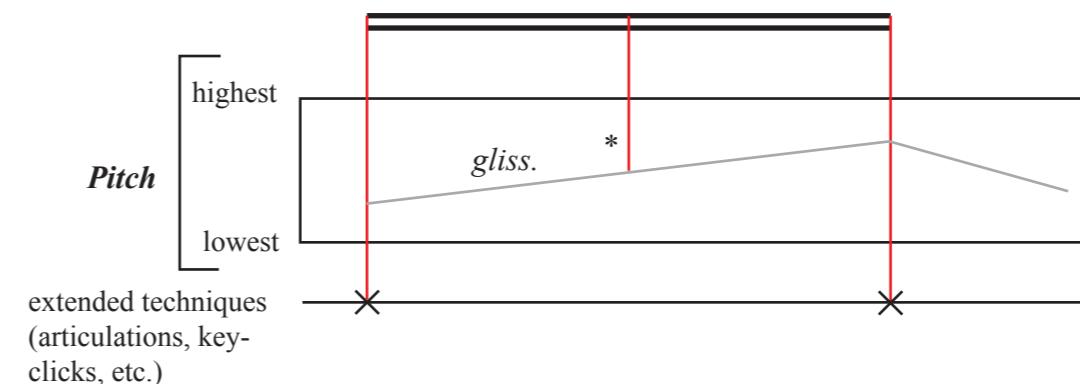

Multiphonics (suggested fingering given at first occurrence).

*see p. 146 (No.31) of Harry Spaarnay's 'The Bass Clarinet: A Personal History'

Bass Clarinet Tablature

The tablature notation occurs in passages of indeterminately-pitched sounds. It simply denotes the general pitch-direction of the unpitched sounds according to specified rhythms.

* Impulses with no symbol attached should not be articulated, but counted nonetheless.

Different coloured lines indicate different sound-types:

aeolian air-noise

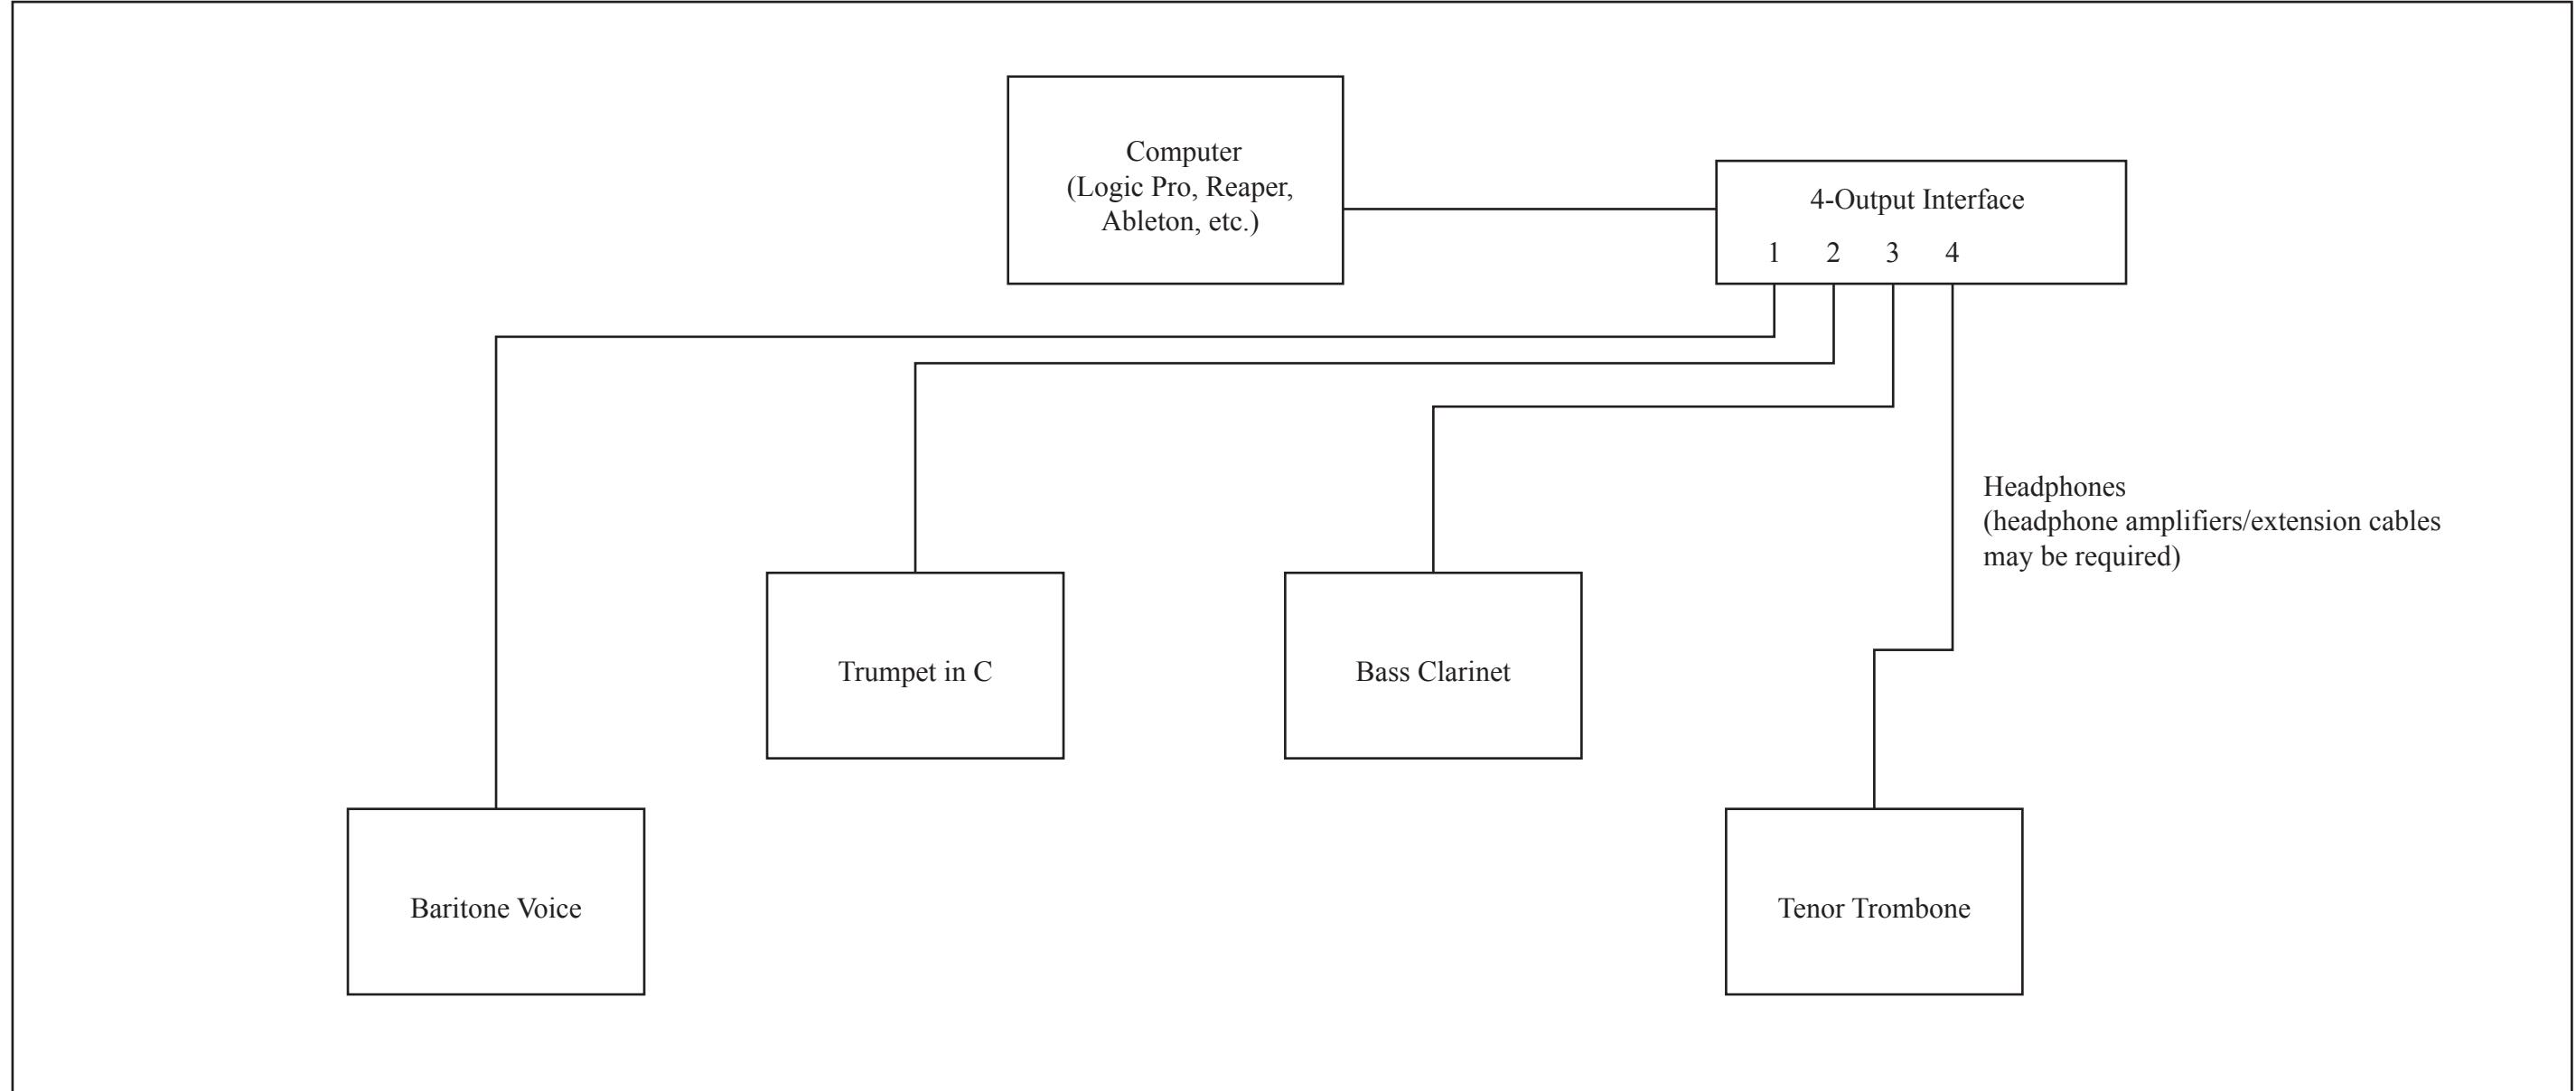

hum through Bass Clarinet, using the instrument as a resonator

single key-click (unpitched) *

tr. key-click trill

*by ‘key click’, this refers to the *dual* sound created by the key being depressed *and* released. So for each ‘click’, depress and release the key.

Performance Layout:

1. Input the click-tracks into Logic Pro/Reaper/Ableton, etc.
2. Route the click tracks for each part to a separate output (in this case, Baritone Voice is output one, Trumpet is output two, etc.).
3. Connect each pair of headphones to their corresponding output (headphones amplifiers may be required to boost the signal, and extension cables depending on the size of the venue).
4. When 'play' is pressed on the computer programme, each part should receive the audio for their own separate click-track.

This section of the score consists of five staves. The top staff is a bass staff with a bass clef, featuring a sustained note followed by a glissando. The second staff is a soprano staff with a diamond-shaped note head. The third staff is a soprano staff with a wavy line. The fourth staff is a soprano staff with a diamond-shaped note head. The fifth staff is a bass staff with a bass clef, featuring a sustained note. Red vertical lines connect corresponding notes across the staves. The lyrics "té on y fait cou - ler la f trer* dans ma" are written below the staves, with "mf" dynamics placed under the first and last staves.

A musical score for bass clarinet. The tempo is marked as $\text{♩} = 140$. The key signature is B-flat major (two flats). The time signature is common time (indicated by a '7' over '16'). The measure consists of two groups of notes separated by a vertical bar line. The first group contains three pairs of eighth-note pairs, each pair consisting of a B-flat note followed by a G note. The second group contains two pairs of eighth-note pairs, each pair consisting of a B-flat note followed by a G note. The notes are connected by vertical stems. The dynamic marking 'mp' is at the beginning, and a crescendo mark (>) is at the end. A repeat sign with a '1' above it is positioned above the first group of notes. A measure number '4:44' is at the bottom left.

This image shows a single page from a musical score, page 31. The page features several staves of music with various time signatures and performance instructions. At the top left, there are two staves with time signatures of 1/16 and 2/16. The middle section contains three staves with time signatures of 3/8, 7:8, and 13/16. The 13/16 staff is labeled '[hurried]' and 'velato'. The bottom section has two staves with time signatures of 10:13 and 15:13. The 10:13 staff includes a 'harmonic gliss.' instruction. The 15:13 staff includes 'simile' and 'mp' dynamics. There are also sections with 20:14 and 25:19 time signatures at the very bottom. Various performance techniques like wavy lines, dots, and arrows are used throughout the score. Measure numbers VI and VII are indicated above the lower staff. A note on the 13/16 staff is marked with a brace and a note '*(—)' followed by the instruction '*'scoop' upto each note'.

This image shows a single page from a musical score, numbered 37 at the top left. The page features several staves of music, each with unique note heads and stems. The first two staves are labeled with boxes containing '1 16' and '3 16'. The third staff is labeled '2 16' and includes a note with a vertical line and a downward arrow. The fourth staff is labeled '12 16' and contains notes with vertical lines and downward arrows. The fifth staff has sections labeled 'V/VI', 'III/IV', 'III', and 'II-III'. The sixth staff is labeled '13 16' and contains notes with vertical lines and upward arrows. Various dynamics are indicated throughout, such as 'ord. gliss.', 'sffz', 'sfz', 'f', 'mf', 'subito f', '(f)', 'flz.', and 'ff'. Performance instructions like '[foreboding]' and '[sudden foreboding shrieks]' are placed above certain staves. Measure numbers 10:14 and 18:12 are also present above the fourth staff.

Musical score page 38, featuring three staves of music:

- Top Staff:** Time signature $\frac{13}{16}$. Dynamics: *sfp*, *f*. The staff consists of 13 sixteenth-note strokes. Red vertical lines indicate specific notes: the first two notes, the 7th note, and the 11th note.
- Middle Staff:** Time signature $\frac{12}{13}$. Dynamics: *mf*. The staff consists of 12 eighth-note strokes. Red vertical lines indicate specific notes: the 1st, 4th, 7th, 10th, and 13th notes.
- Bottom Staff:** Dynamics: *ff*. The staff consists of 10 eighth-note strokes. Red vertical lines indicate specific notes: the 1st, 3rd, 5th, 7th, 9th, and 10th notes. The staff begins with a wavy line and ends with a wavy line.

Performance instructions include slurs, grace notes, and dynamic markings like *sfp*, *f*, *mf*, and *ff*.

15:13

Musical score page 10 featuring four staves:

- Staff 1 (Top):** Dynamics include **p**, **mf**, and **pp**. The text "filles" is positioned above the staff.
- Staff 2 (Second from Top):** Dynamics include **p**, **mf**, and **pp**. The text "9:12" is positioned above the staff. A box labeled **18
16** is located to the right of the staff.
- Staff 3 (Third from Top):** Dynamics include **mf**, **mp**, **mf**, and **pp**.
- Staff 4 (Bottom):** Dynamics include **p** and **mp**.

Red vertical lines and marks (circles, crosses) are placed at specific measures across all staves, indicating performance or recording markers.

A musical score page featuring five staves of music. The top staff uses a soprano C-clef, the second staff an alto F-clef, and the bottom three staves bass G-clefs. The time signature is $\frac{16}{16}$ throughout. The score includes lyrics in French: "Non", "d'en*", "ne", "ma*", "dans", "plus", "pa*", "je", "me", "pro", "-", "mè", "-", "ne", and "fal*". Various dynamics are indicated: **f**, **mf**, **pp**, **mp**, and **gliss.**. Articulations include vertical red lines with 'X' marks and small circles with dots. Performance instructions like "*d'en as in d'entrer", "*ma as in matin", "*pa as in papier", "[leading the texture]", and "*fal as in fallu" are placed above specific measures. A tempo marking of $\text{♩} = 85$ is at the top left. Measure numbers 1, 2, 3, 8, and 18 are shown in boxes. A skip instruction "skip to page 57" appears twice. Metronome markings 12:11, 13:12, 14:13, 19:18, and a "(key click) (mf)" marking are also present.

This musical score page contains two vocal parts and a basso continuo part. The top vocal part consists of two staves, both marked with 'gliss.' and 'X' markings. The lyrics for this part are: le, quinze — de, la, on, - zi, - è, me, le, so, - leil. The bottom vocal part has lyrics: , , , , , , , , . The basso continuo part is represented by a single staff with a brown line indicating pitch, marked with 'f', 'pp', 'mf', and '(mf)' dynamics. Measure numbers 13:11, 14:12, and 15:13 are indicated above the staves. A box labeled 'skip to page 58' is located near the end of the page. A page number box at the top right shows '25' over '16'. Red vertical lines mark specific points in the music.

This image shows a page from a musical score. The top section features a staff with vertical grid lines and several 'X' marks indicating specific notes or events. Below this, lyrics are written horizontally. The middle section contains a staff with a blue line graph showing a gradual rise and fall, with dynamics (mf, pp, mp) indicated. Red vertical lines mark specific measures. The bottom section has a brown line graph with dynamics (mf, f, p) and red vertical lines. Measures are numbered vertically on the left side of each staff.

16

This musical score page contains three staves of music. The top staff consists of six horizontal lines. It features several 'X' marks and a 'gliss.' (glissando) instruction with a diagonal line. Below the staff, lyrics are written: 'font', 'sur', 'mes', 'vers', 'les', 'pi', 'tres', 'et', 'dan', 'sent', 'sur', 'le', 'pa', and 'pi'. A small box labeled '12' and '16' is positioned above the middle of the staff. The middle staff has five horizontal lines and includes a blue wavy line indicating pitch movement. It has several open circle markers and dynamic markings: 'p', 'mf', and 'pp'. The bottom staff has five horizontal lines and includes a brown wavy line indicating pitch movement. It has several 'X' marks and dynamic markings: 'mp' and 'mf'. There are also time signatures '20:18', '26:25', and '13:14' placed above specific sections of the staff.

This figure displays a musical score for the song "La Vie en Rose" across four staves. The top staff features lyrics in French with corresponding vocal entries marked by 'X' and horizontal lines. The second staff contains a blue line with black dots and dynamic markings like 'mf'. The third staff shows a brown line with a transition from humming to air-noise. The bottom staff has a brown line with a transition from air-noise to humming. Various performance markings such as '11/16', '3/16', '6/16', 'f', 'p', 'mp', '9:08', and 'transition from whistling to air-noise' are included. Measure numbers 11 and 16 are indicated at the top.

A multi-line musical staff with the following markings:

- Top Staff:** A vertical line with a small square containing "13" and "16" at the top. It has two short black horizontal dashes at the top and bottom.
- Middle Staff:** A horizontal line with a small circle in the center. Below it is the dynamic **mp**.
- Bottom Staff:** A horizontal line with a small circle in the center. Below it is the dynamic **mf**.
- Articulations:** Red vertical lines with small circles at the top and bottom, indicating specific points of attack or release.
- Dynamics:** **sfp** (soft forte) is indicated by a wavy line at the bottom. **sfz** (soft pizzicato) is indicated by an "x" on the middle staff. **subito f** (subito forte) is indicated by an "x" on the bottom staff.
- Time Signatures:** Above the middle staff, there are three horizontal lines with the ratios **12:15**, **14:13**, and **15:14** respectively. Above the bottom staff, there are three horizontal lines with the ratios **13:12**, **14:13**, and **15:14** respectively.
- Other:** There are several "x" marks on the staff lines and a wavy line at the very bottom.
